

TRANSFORMING OBSOLETE INDUSTRIAL FACILITIES INTO USEFUL RESOURCES

<https://serviciosintegralesdiazleal.com/>

<https://serviciosintegralesdiazleal.mx>

THE RISKS YOUR PROJECTS FACE TODAY

- Delays caused by poor planning or external administrative processes.
- Loss of value in assets, materials, and equipment.
- Safety risks and penalties due to non-compliance.
- Operational disruptions and community impact in urban or port environments.

COMPREHENSIVE SOLUTION FOR A SAFE AND PROFITABLE PROJECT CLOSURE

- Technical execution with guaranteed timelines and quality.
- Fully regulated operation: we hold all required permits to perform our work.
- Circular economy approach: material recovery and immediate payment for assets.
- Safety systems aligned with NOM standards and OSHA guidelines.
- Controlled, eco-efficient processes focused on reliable results.

WHAT WE DELIVER FOR YOU

- Industrial dismantling and metal scrapping.
- Maritime scrapping and salvage (fixed or floating structures).
- Specialized demolition of buildings and structural elements.

- Deep and shallow excavations with slope-control protocols.
- Soil remediation and comprehensive waste management.
- Asset and metal material purchasing with immediate payment.

PERMISSION MANAGEMENT FOR YOUR PROJECT

- Processing of environmental, maritime, and municipal permits.
- Coordination with authorities to avoid administrative delays.
- Technical support with requirements, studies, and documentation.
- Ideal for clients without an in-house management team or with critical timelines.

LET'S START WITH A FREE DIAGNOSIS

- **Technical evaluation of the project.**
- **Valuation estimate and implementation plan.**
- **Review of permits required for your project.**
